

REFINING THE MOVEMENT PRACTICE

Instructor: Jason Hulme D.C., Dipl. Med. Ac.

IN THIS COURSE

Learn how to systematically diagnose and build patient centered treatment plans for conditions like: tendinopathy, motor weakness, radiculopathy, extension intolerant pain *and more*.

How, when, and where to use (multiple acronyms) systems / techniques / therapies

Why and how to simply use video analysis in patient care.

HANDS ON learning to effectively perform and integrate a patient exam without missing anything.
